DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-11, drawn to a first communication unit interfacing with a vehicle computer such that bi-directional communication is enabled between the first communication unit and the vehicle computer, classified in class 455, subclass 418.
 - II. Claims 11-20, drawn to a first communication unit comprising a first read/write memory unit, wherein the first communication unit interfaces with a vehicle computer such that the first communication unit performs at least one of a read and a write operation on data stored in the vehicle computer, classified in class 701, subclass 1.
2. The inventions are distinct, each from the other because of the following reasons:

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
3. During a telephone conversation with Mr. James Kallis (Reg. No. 41102) on 11/10/04 a provisional election was made without traverse to prosecute the invention of group I, claims 1-11. Affirmation of this election must be made by applicant in replying to this Office action. Group II, claims 12-20 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

EXAMINER'S AMENDMENT

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Kallis on 11/10/04.

The Application has been amended as follows:

Claims 12-20 have been cancelled.

Allowable Subject Matter

5. Claims 1-11 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding **amended independent claim 1**, Applicants have amended claim 1 to recite that the first communication unit interfaces with a vehicle computer such that bi-directional communication is enabled between the first communication and the vehicle computer and information residing in the vehicle computer may be accessed and modified by the second communication unit. The prior art, Robert (US 6169497) or Logan (US 6631271), either singularly or in combination, fail to anticipate or render obvious that a communication unit interfaces with a vehicle computer such that the information contained within the vehicle computer may be accessed by a remote unit, as argued by Applicants on page 10.

Claims 2-11 depend on claim 1. Therefore, they are allowed.

Art Unit: 2681

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
